

## What problems did William face after the Battle of Hastings?

There is a very strong castle full of English soldiers at Dover. If things go wrong for William they could cut off his route back to Normandy.

Many of the English lords did not want to accept William as King. William could not trust them to keep their parts of the country under control. He needed to find a way of keeping the whole country under control.

There was a rebellion in the north of England and there was still a threat of Viking invasion in the north too.

London is England's capital city. William needed to take control of it quickly. Some of Harold's troops did not go with him to Hastings. Many of them were still in London.

William needed to collect taxes, but he did not know how much wealth there was in the country and who owned what.
